Humidifier X1

Corded Sensor Probe X1

Long Straight Pipe X1

Short Straight Pipe X4

Long Telescopic Tube X2

Short Telescopic Tube X4

Two-way Conversion Adapter X1

Three-way Conversion Adapter X1

Four-way Conversion Adapter X1

Quad Directional Nozzle X1

APPLICATION IN TENTS

NOTE:

When using spray pipes, please use straps to hang the pipeline horizontally above the plants. And Please do NOT excessively bend the pipeline to avoid water accumulation in the pipeline.

ADD WATER TO THE TANK

1: Open the lid above the humidifier and inject water at the top, or detach the tank to fill it with water.

2: We recommend using distilled water to minimize mineral build-up.

NOTE:

Do not pour water into the spray outlet, as it can prevent the humidifier from functioning properly.

CLEANING

Change water reservoir at least once every 4 days.Clean and maintain the unit at least once per week.

① Unplug the humidifier and remove the tank from the base.

② Pour out any water sitting in the base.Pour two cups of distilled water and one tablespoon of vinegar into the base. Let it sit for five minutes.

③ Use the included brush to remove any build-up from the nebulizer(s).

④ Pour out the vinegar water mixture and wipe the base dry. Replace the tank to finish.

BUTTONS AND DISPLAY ICONS (SF-HUMIDIFIER6)

1.POWER BUTTON

Turns the humidifier ON or OFF.

2.HUMIDITY BUTTON

Sets the constant humidity value, ranging between 35% and 95% in 5% increments.

3. MIST BUTTON

Sets the fog volume, divided into 1-4 gears, from low to high, the mist volume is between 270-450 ML/H.

4.TIMER BUTTON

Sets a countdown timer to turn your humidifier off, ranging between 1 and 12 hours in 1-hour increments.

5.CURRENT MIST LEVEL

Displays the humidifier's current moisture level, the mist icon above the value will light up.

6.HUMIDITY WORKING ICON

During the operation of the constant humidity function, the value below the illuminated icon is the set value.

7.TIMER RUN ICON

When the timer function is running, the remaining run time value will be displayed below the illuminated timer icon.

8.ALERT ICON

When the water in the water tank is below the minimum water level, the red water shortage alarm icon will flash for 15 seconds and the buzzer will sound three times before entering the shut down state.

9.PROBE HUMIDITY DISPLAY

Displays the current humidity, automatically measured by the probe, in%.

10.TIMER VALUE DISPLAY

Shows the TIMER mode countdown in hourly intervals, indicating when your humidifier will turn off.The unit of measurement is H.

11.CURRENT TEMPERATURE DISPLAY

The probe detects the surrounding temperature and displays it in°F.

(The temperature display unit for humidifiers in the US is °F, while the temperature display unit for humidifiers in other specifications is °C)

BUTTONS AND DISPLAY ICONS (SF-HUMIDIFIER16)

1.POWER BUTTON

Turns the humidifier ON or OFF.

2.HUMIDITY BUTTON

Sets the constant humidity value, ranging between 35% and 95% in 5% increments.
